65/98 Soi Vibhavadi-Rangsit 64, Junction 2, Kwang Talad Bangkhen, Khet Laksi,
Bangkok 10210

29 January 2020

Subject: Update on the situation related to Hana Microelectronics Public Co., Ltd.'s subsidiary in China in relation to the Coronavirus outbreak

**To: Chairman of the Board
The Stock Exchange of Thailand**

In accordance with the Chinese government requirements, Hana Microelectronics (Jiaxing) Co., LTD. which is a subsidiary of Hana Microelectronics Public Co., Ltd., will follow the mandatory requirement from the local government to extend the factory shutdown from Chinese New Year holiday to February 9, 2020. The factory will re-open on February 10, 2020.

From the shutdown, Hana Microelectronics (Jiaxing) Co., Ltd. would lose one week's output which would represent approximately 0.3% of the Hana Group's annual output and which can easily be recovered since the factory is currently not running at 100% capacity due to the past issues with US/China trade dispute.

Please be informed accordingly.

Sincerely yours,

Mr. Terrence Philip Weir
Director
